

Interspill Academy Short Courses
Monday 7 April 2025, ExCeL London
Part of Interspill 2025

Course Title:

Optimising Spill Response: Transitioning from Emergencies to Projects

Course Timings:

12:30-17:30

Course Length:

5 hours (incl. breaks)

Level:

No previous knowledge required.

Instructors:

ITOPF and OSRL

Course Summary:

Join us for an immersive and comprehensive short course designed to enhance your skills in oil spill response and management. This course, hosted by ITOPF and OSRL, focuses on the critical transition from emergency response to long-term project management, ensuring effective and sustainable spill recovery.

Course Highlights:

- Insights from leading response organisations: Learn applied techniques and best practices from experienced practitioners to optimise your spill response efforts.
- VR and MR Activities: Engage in cutting-edge virtual reality and mixed reality simulations to experience real-world spill scenarios and response strategies in a controlled, immersive environment.
- Remote Sensing and Modelling: Discover the latest advancements in remote sensing technology and modelling tools that enable accurate assessment and monitoring of spill impacts.
- Incident and Crisis Management Tools: Gain hands-on experience with essential tools and methodologies for managing incidents and crises, ensuring a structured and efficient response to spill events.

Book this course:

Subject to availability, this course can be booked by Interspill 2025 delegates. It has been included as 'add-on' selection option in the event's ticket registration platform. On the event website, visit www.interspill.org/2025/conference/book-tickets to book your place at Interspill 2025 and to select your place on this Interspill Academy Short Course.
