

## Biography:

### Dr Harald Lura, Environmental Advisor, Subsea Well Response Project

Harald Lura has 6 yrs. of experience from the oil industry at the Norwegian shelf as environmental advisor in ConocoPhillips Skandinavia's HSE staff in Stavanger, and is also part of the Norwegian oil spill response organisation set up by NOFO. He has 14 yrs. of additional experience as environmental consultant, as environmental manager at the Norwegian County Governor level, and as university researcher. Harald holds a PhD in zoological ecology from the University of Bergen.

His experience from the oil industry covers environmental aspects of operation and development of the Ekofisk field in the North Sea, including chemical management, discharge control, reporting, ecological monitoring and research, as well as platform removal and oil spill response.
