Potential Issues

Group Discussion

1.0

SECTION ONE

MANDATORY REQUIREMENTS

HSSE MANDATE

- ❑ Details the Responsibilities and Accountabilities for Businesses and their Emergency Response Managers
- ❑ Businesses must carry out risk-based prioritisation against other activities
- ❑ Business Leader is accountable for
 - ❑ Establish, maintain and exercise spill response plans based on Tiered Preparedness and Response where permitted by law.
 - ❑ Provide the resources needed for spill response.

HSSE MANDATE

- ❑ Expertise Centre is responsible for
 - ❑ Determining the structure of regional teams to support Tier 3 spill response
 - ❑ Evaluating the effectiveness of Tier 3 spill response and spill response exercises and advise Business Leader of gaps and recommended actions to close the gaps.
- ❑ OSEC is accountable to the Steering Group comprising representatives from all parts of the business

HSSE MANDATE FOR EXERCISING

Emergency Response co-ordinator responsible for

- ❑ Exercising the spill response plan
- ❑ Documenting
 - ❑ the exercise scenario
 - ❑ roles,
 - ❑ outcomes,
 - ❑ opportunities for improvement
- ❑ Monitor corrective actions from exercises until they are implemented and closed out.
- ❑ Feedback to Oil Spill Expertise Centre (OSEC)

WHAT THIS MEANS TO THE BUSINESS

- ❑ A clear mandate regarding oil spill preparedness and response
- ❑ A framework against which Businesses can be audited
- ❑ Global alignment across ALL Shell Group Businesses
- ❑ Global Response Support Network (GRSN) offers global support across all Businesses.
- ❑ Availability of Shell Group Subject Matter Experts

EXERCISE FREQUENCY

	Tier 1	Tier 2	Tier3
NOTIFICATION	6 months	12 months	12 months
TABLE TOP	12 months	24 months	36 months
EQUIPMENT DEPLOYMENT	12 months	24 months	36 months
COUNTRY/MULTI COUNTRY	N/A	N/A	36 months

Notes:

1. Response to a spill is equal to an exercise

2.0

SECTION TWO

MONITORING AND CAPTURING LEARNING

CAPTURING AND MONITORING LEARNING CENTRE OF EXCELLENCE

- ☐ Maintains a record of all oil spill incidents & exercises globally
 - ☐ Contains focal point
 - ☐ Businesses involved
 - ☐ External parties involved
- ☐ 6 months prior to exercise
 - ☐ OSEC makes contact with focal point
 - ☐ Sends list of current Areas for Improvement
 - ☐ Offers assistance or advise, particularly on addressing pertinent Areas for Improvement
 - ☐ Ensure all GRSN members are aware of an exercise in the area

THINGS TO LOOK OUT FOR –POTENTIAL PITFALLS

■ Before the event, check

- Contact details, both internal and external are up to date
- Gap analysis completed between local and national plans, including cross border plans
- Comprehensive mapping of all stakeholders
- Process in place to improve skill pool availability through training and succession.
- Plan defines who is the focal point for external liaison with OSRO's.
- Plan incorporates a planner in the initial stages to set strategic goals and operational tactics

THINGS TO LOOK OUT FOR –POTENTIAL PITFALLS

- If the Incident continues for prolonged period
 - Set up in Emergency Response centre allows, space and telephone numbers for external agencies
 - Plan allows for increased legal support (local knowledge) when situation demands
 - Duty rosters
 - Recording of data
 - Ongoing manning
 - Potential global impact of even a small spill needs to be understood

THINGS TO LOOK OUT FOR –POTENTIAL PITFALLS

■ External support:

- Availability of dispersant and aerial capacity
- Management and handling of Oil Spill Response equipment
- Access to worksites i.e. for beach clean up
- Wildlife experts
- Sufficient waste oil capacity and disposal options
- IT
- Communications - subject matter experts to assist with Q&A's
- Dedicated media teams
- Triggers and plans for extra resources (e.g from GRSN or equivalent)

Q & A
