

## **Biography:**

### **Richard Santner, SME - Senior Advisor, Oil Spill Response, BP**

Richard Santner is a chartered engineer with an MSc in environmental technology. He has 19 years oil spill response experience at ITOPF, OSRL, moving to BP in 2007 for global shipping, regional businesses then corporate crises. He has responded to oil spills in 26 countries and trained/consulted in many more. He worked for 6 months on the Deepwater Horizon response, leading the Shoreline Cleanup Assessment Program (SCAT). For 15 years he has worked with IPIECA and the IMO, authoring several international oil spill preparedness and response manuals and technical guides. He is BP's Senior Advisor on Global Oil Spill Preparedness and Response.
